## WELCOME TO ALLIANCE!

The Alliance for Affordable Services is a not-for-profit association that is dedicated to enhancing the quality of life for all Americans through legislative advocacy on Capitol Hill and promoting higher education. For more than 30 years, the Alliance for Affordable Services has been empowering small-business owners, entrepreneurs, and the self-employed by using the negotiating power of the group to provide them with access to corporate-style benefits and services. Alliance benefit partners must complete a thorough selection process, and Alliance continuously monitors member feedback on the quality of services provided.

As the economic landscape evolves, the number of Americans who receive traditional employer-provided benefits has declined. More and more individuals and families are turning to the Alliance to help them find ways to stretch their dollars further and save on health and wellness, household expenses, and professional services. This is not a new trend for the Alliance. We've been building benefit packages for our members and providing them with important information since 1981, and consumers recognize the value.

This member benefit guide outlines the wide range of discounts and services available to you. More detailed benefit information and everything you need to access all your benefits and savings can be found online at [www.AffordableServices.org](http://www.AffordableServices.org). This guide also contains “GoTo” keywords to use on the Alliance website for a quick look up of any specific benefit you are interested in learning more about.

If you need assistance logging in to the Alliance website or accessing any of your benefits, please call Member Services at **800-733-2242**. Representatives are available to assist you 7:00 a.m. to 5:30 p.m. Central time, Monday through Friday.

We look forward to serving you and helping you get the most from your Alliance Membership!

Best Regards,

Paul Pevsner, M.D.  
President

\*This is a membership offered and administered by Alliance for Affordable Services, P.O. Box 612547, Dallas, TX 75261-2547, an association formed under the laws of the District of Columbia. The Alliance Membership is not an insurance contract. The membership includes access to insured and non-insured benefits. Benefit availability is dependent upon membership level, package option, member's state of residence, and is subject to change. Certain limitations, reductions, and exclusions may apply. Refer to [www.AffordableServices.org](http://www.AffordableServices.org) for details. Information on optional benefit programs you may have purchased will be sent under separate cover directly from the benefit provider.

## A VOICE FOR SMALL BUSINESSES

The group negotiating clout of the Alliance provides the association with the ability to advocate for our members' priorities in Washington, D.C. The primary objective of the Alliance Legislative Advocacy Program is to provide our members with tools to contact their elected officials and the opportunity to voice their opinions in face-to-face local meetings in their electoral districts with their legislators. Alliance is focused on keeping members informed. The association provides a variety of ways for members to get involved and make a difference. Through frequent polls and surveys, members can voice their positions on key issues such as health care reform, taxes, the economy, and job creation. The Alliance presents that information to legislators on behalf of our members. Recent legislative victories include the repeal of the 1099 reporting mandate that was passed as part of the Patient Protection and Affordable Care Act; the extension of the Small Business Innovation Research and the Small Business Technology Transfer Program grants for another six years; and support of small business contracting reform that was passed by the House in the National Defense Authorization Act (NDAA) of Fiscal Year 2013.

## EMPOWERMENT THROUGH EDUCATION

### ► Alliance Scholarship Program

This program was created in 1996 to help members shoulder the burden of providing a college education for their dependents. Since inception, the program has awarded more than \$2.2 million to students who have demonstrated the highest standards of academic excellence. In the past, only member dependents were eligible to apply for a scholarship. Beginning this year, Alliance Members and their spouses are also eligible to apply, if they meet the eligibility criteria.

› *GoTo: Scholarship*

### ► Career Education Grant Program

In 2012, the Alliance responded to the needs of our members and marketplace trends by introducing a Career Education Grant Program. Even though unemployment rates remain high, technicians and skilled trade workers top the list of the hardest jobs to fill. The grant program targets this unmet need. It provides Alliance Members and their dependents access to a one-time \$1,000 grant that can be applied toward enrollment and attendance at an accredited trade or technical school.
