TERMS YOU NEED TO KNOW

Accidental Injury means accidental bodily injury sustained by the insured person which are the direct result of an accident, independent of disease or bodily infirmity or any other cause, and which occur while the insurance is in force. Accidental injury includes pregnancy following an act of rape of an insured person which was reported to the police within 7 days following its occurrence. In the case of an act of rape or incest to a female insured person under the age of 13, the 7 day requirement is extended to 180 days.

Hospital means a licensed institution for care and treatment of sick and injured persons for which a charge is made that you are legally obligated to pay. The hospital (as licensed as a hospital by your state) must: 1) maintain on its premises organized facilities for inpatient medical, diagnostic and surgical care for sick and injured persons; 2) maintain a staff of one or more licensed physicians; 3) provide 24 hour nursing care; and 4) be accredited by the Joint Commission on Accreditation of Hospitals (this would not include hospitals outside of the United States). Hospital does not include: a hospice unit; convalescent home; rest or nursing facility; extended care facility; skilled nursing facility; or facility primarily for custodial or educational care, treatment of mental illness, drugs or alcohol, or care for the aged; and any military or veteran's hospital, soldier's home or any hospital contracted for or operated by the Federal Government for the treatment of members or former members of the Armed Forces, unless the insured person is legally required to pay for services provided by the facility.
