

Critical Illness Coverage
CancerWise® Plus
HeartWise™

Serious illness takes more than a physical toll — it can impact your finances as well. Our Critical Illness suite of products, can provide an extra layer of financial protection so you can focus on what really matters.

What is a Critical Illness?

A critical illness is a serious medical condition that can strike suddenly and disrupt your life physically and financially. Chances are someone close to you has had a critical illness diagnosis such as cancer, heart attack, stroke, coronary artery bypass, or angioplasty.

Our Critical Illness suite of products was created for people up to age 90 to help with some of the out-of-pocket expenses that can add up during diagnosis and recovery.

Can You Afford a Critical Illness?

- Can you afford \$50,000? Time away from work can take its toll. The average loss of income due to critical illness is more than \$50,000.¹
- Can you afford 3 months? Most heart attack patients can't go back to work for up to 3 months.²
- Can you afford a surprise? If you're diagnosed with cancer, you might spend 1/3 of your income on expenses your health insurance doesn't cover.³

Critical Illness Coverage at a Glance

- Pays up to a \$100,000 lump-sum cash benefit on a first diagnosis of a covered critical illness or qualifying event
- Benefits paid directly to you – not your doctor or hospital
